For information about our Local Value 1500 and 2750 packages, call our office at 843-658-3434.

Sandhill's *Local Value* Nationwide calling packages include **unlimited local calling** and **reduced** rates (from 6.4 cents per minute down to 3.0 cents per minute) for nationwide minutes **anytime, anywhere** in the U.S. – interstate (state-to-state), intrastate (within South Carolina), and regional (toll calls within the 843-calling area) – **any day, with no restrictive calling times**

## Important information about Sandhill's Local Value Nationwide Residential Calling packages:

- Unlimited local calling refers to Sandhill's local calling scope. Nationwide minutes include both your direct-dialed voice calls (modem usage is not included) and your incoming toll-free voice minutes (for members who use Sandhill's toll-free-number service).
- No minimum service contract required – these plans are designed for you; it's *your* cooperative.
- Rates exclude authorized federal and state regulatory fees and charges, and applicable federal, state, and municipal and school district taxes; and EAS charges, where appropriate.
- Overage rates for the nationwide minutes in all Sandhill calling packages are 12 cents per minute; there are no penalties for switching between packages.
- Cooperative members who have not selected Sandhill Communications as their preferred long-distance carrier will need to complete and sign a "PIC change" form to take advantage of our Local Value Nationwide calling packages; Sandhill will waive the \$5.00 federally authorized interstate PIC change charge, as well as the \$5.00 intrastate state-authorized PIC change charge.

To get additional information about these benefits, and more, call Sandhill, at 843-658-3434.

## Other *Local Value* Features

**Toll-Free Number Service** – as part of our new calling packages, Sandhill offers free activation of one toll-free number, a \$15.00 savings.

**Convenience** of one bill for all your local and nationwide calling charges – with other long distance and wireless carriers, you are billed separately from your local charges.

**Location, location, location** – Only Sandhill offers local and nationwide calling with a cooperative touch – plans and choices you won't see from the national long-distance companies or wireless giants! You'll also enjoy the one-to-one service you expect as a cooperative member, from a **local** provider, based here in our community, with people you know and trust.
